

# SPOTIFY PREMIUM UPGRADE

---

## *Introduction*

---

Hello HF members, today I'll show you how to make premium accounts of Spotify for free without any cost, also those accounts are not 30 day trial account and in the case they close your account or they close your premium status you can do the method again to generate another premium account (got friends that have been using this method 5 months ago and they still having their accounts Premium)

You can use this method to generate accounts and sell them or just for your own use.

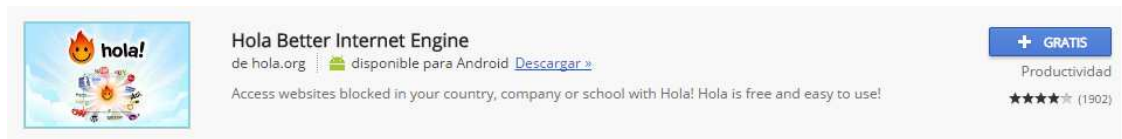

---

## Steps

---

Lets start:

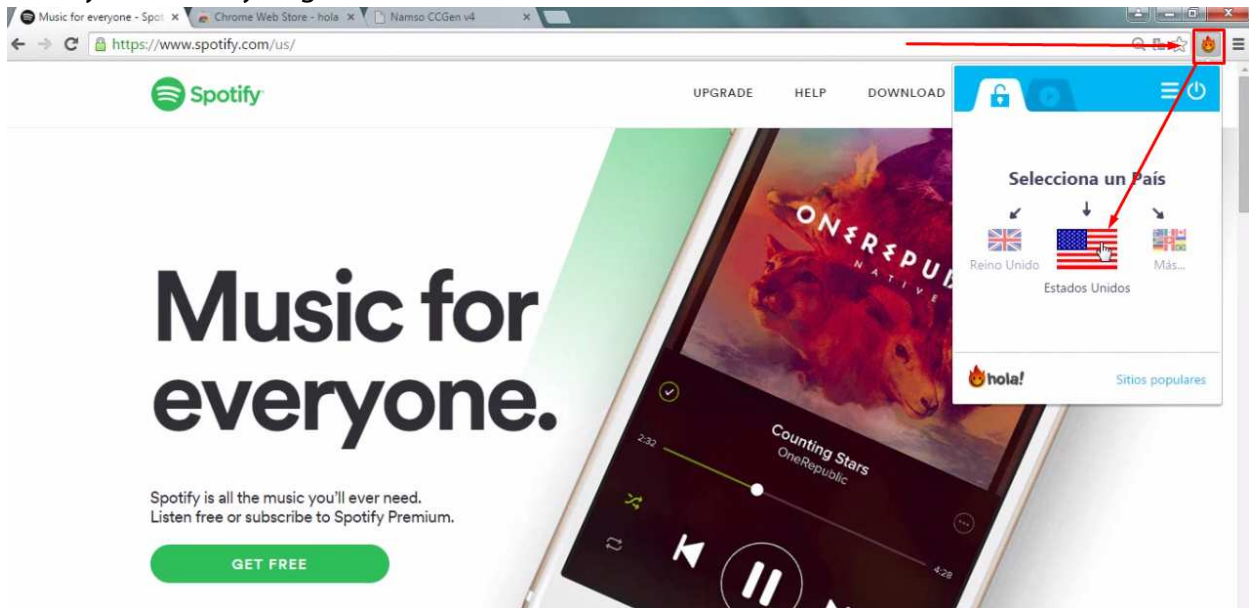

First of all we'll head to Chrome web store (you can do this by clicking on Apps on Google chrome tab ) , once you're here we'll search for an extension called Hola (you'll see text in Spanish because its my main language but I'll try my best to show all in English)

Once you find it install it on your chrome clicking on Free (you'll find an icon like that once its installed )

Now you'll head to the Spotify website (<https://www.spotify.com/us/>)

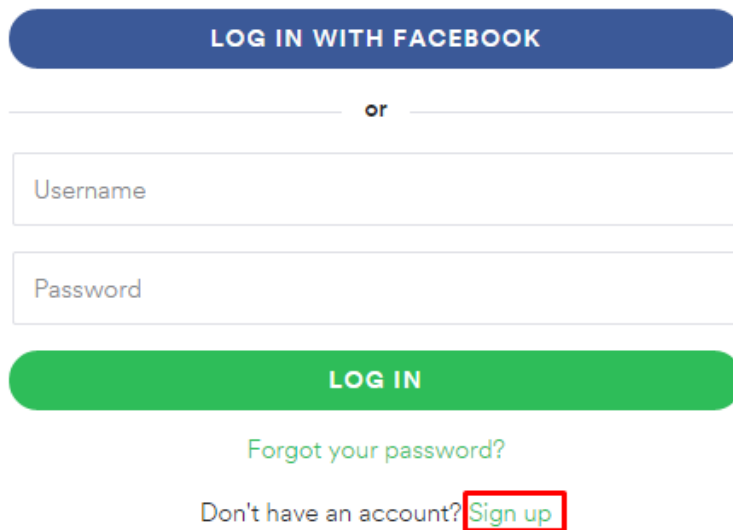

Once you're here you gonna click on the Hola icon and select United States

Once you've done that and the website has refreshed click on Log in

After clicking on Log in we'll be redirected to the login site, then we'll click on Sign up

Once on the sign up page I recommend you on the username field to use a username with 5 letters and 3 numbers (for example polak928) you can invent the email, use your own one or if you don't want any of this options you can use this (<http://www.yopmail.com/en/>) Yopmail is an anonymous mail that you can use in those cases. On the birth date that's important, you can put what you want on Month and day **BUT ON THE YEAR WRITE 1950**

Once you have signed up and you're on your account overview **DO NOT CLICK ON GET FIRST 30 DAYS** (you'll see something like this):

**I REPEAT DO NOT CLICK ON GET FIRST 30 DAYS FREE**

When you're on the Account overview page, instead of clicking where I said that you don't have to click you'll open that link

[https://www.spotify.com/us/purchase/spotify/product/premium/?utm\\_source=spotify&utm\\_medium=website&utm\\_campaign=account overview 30dt Button&utm\\_content=Button&utm\\_term=Lose the ads&free trial=1](https://www.spotify.com/us/purchase/spotify/product/premium/?utm_source=spotify&utm_medium=website&utm_campaign=account%20overview%2030dt%20Button&utm_content=Button&utm_term=Lose%20the%20ads&free%20trial=1)

**CAREFUL IGNORE THE 30 DAY THING EVEN IF IT SAYS THAT IS 30 DAYS TRIAL ITS NOT, I'VE GOT PEOPLE THAT IS USING THIS ACCOUNT FOR 4 MONTHS AND THEY DIDN'T LOSE THE PREMIUM YET.**

Once you have opened that link (instead of clicking on 30 days trial) you'll see something like this

If you do not cancel your subscription before the end of the trial the credit card you provide will automatically be charged the Spotify Premium subscription fee of \$9.99 + \$0.00 sales tax per month, until you cancel. You can cancel at any time by logging into your Spotify account and follow the cancellation instructions. No refunds or credits for partial monthly subscriptions period. For complete terms and conditions, please see our [Terms of Service](#).

Confirm payment

Change payment method

Here is where they will ask us for the visa or mastercard and we'll be using a trick.

Once we're on this step we'll be heading to this website (<http://namsocccgen.com/>) (if [namso website is not working scroll down and follow the other option](#)) Im sorry if you see it in Spanish I tried to change it to english but didn't find it just follow my screenshots.

Where it says "Inserte su Bin" you'll use this one: 41472021xxxxxxx (with the x included)

"Cantidad al crear" you can set this from 5 -10 (I always use 10)

"Formato" we'll leave it default (if its not on CSV just change it to CSV)

"Agregar" we'll mark the check "Fecha" and once we have all this we'll click on "Generar Tarjetas"

The screenshot shows a web form with the following fields and options:

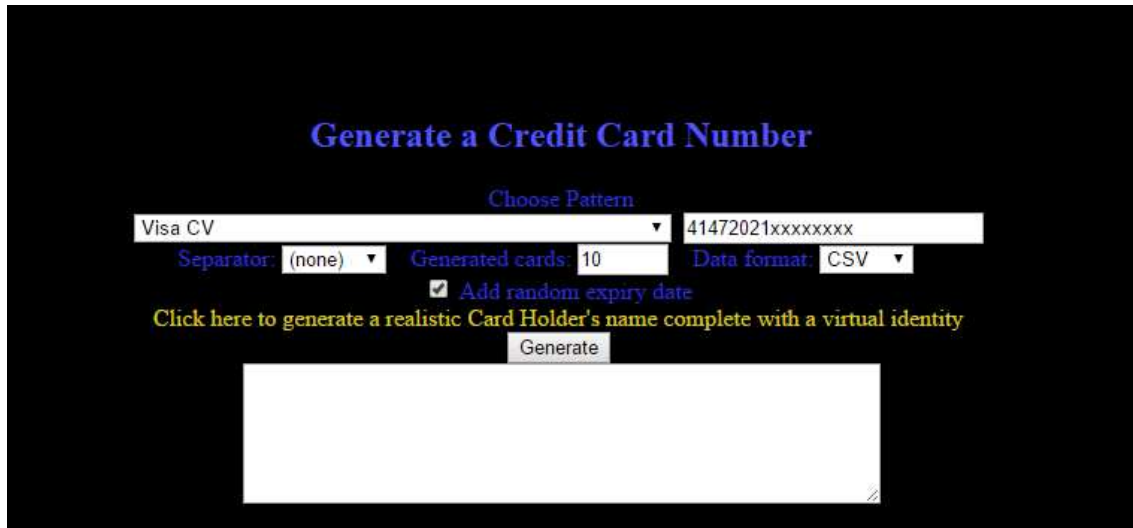

- Bins predefinidos:** Inserte su bin (dropdown menu)
- Inserte su Bin:** 41472021xxxxxxx
- Cantidad a crear:** 10
- Formato:** CSV (dropdown menu)
- Separar por:** Ninguno (dropdown menu)
- Agregar:** Fecha ☒ CCV2 ☐ Tipo Banco ☐
- Generar Tarjetas** (button)

Then below will appear something like that (random credit cards), in this case we'll copy the first one and use it on the Spotify page.

```
4147202100267242, 2017/05
4147202105754632, 2018/06
4147202178081624, 2018/04
4147202186123657, 2018/11
4147202155102054, 2017/08
4147202168283537, 2017/05
4147202176147468, 2018/08
4147202174334068, 2017/06
4147202126737244, 2017/03
4147202174633782, 2018/04
```

## IF NAMSOC CGEN website is not working do the following:

Head to <http://www.elfqrin.com/hacklab/pages/discard.php> and fill all like this:

The screenshot shows a web form titled "Generate a Credit Card Number" in blue text. Below the title is a "Choose Pattern" section with a dropdown menu set to "Visa CV" and a text input field containing "41472021xxxxxxxx". Below this are three fields: "Separator:" with a dropdown set to "(none)", "Generated cards:" with a text input set to "10", and "Data format:" with a dropdown set to "CSV". There is a checked checkbox labeled "Add random expiry date" and a link that says "Click here to generate a realistic Card Holder's name complete with a virtual identity". At the bottom of the form is a "Generate" button. Below the button is a large, empty white rectangular box.

Remember to check the add random expiry date. And then you'll generate something like this:

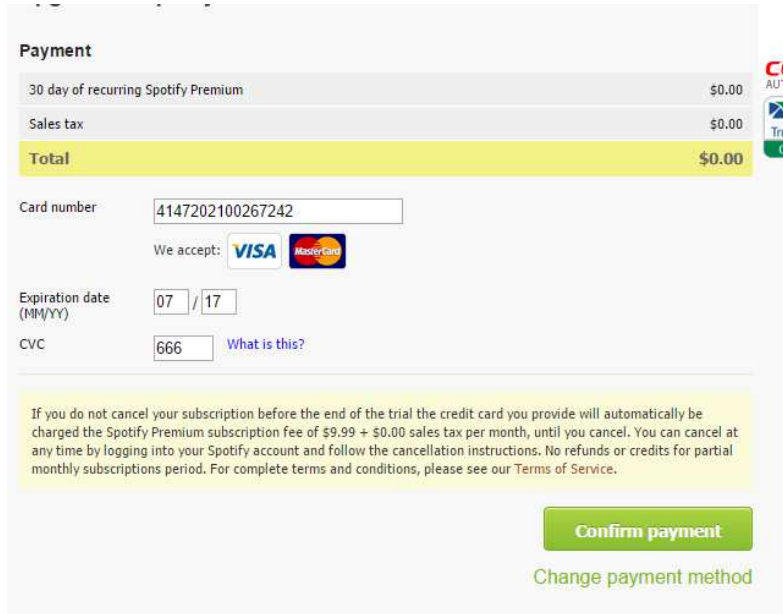

The screenshot shows a text box containing six lines of generated credit card data. Each line consists of a 16-digit card number, a short date expiration format (YY/MM), and the card type (Visa).

4147202155271214,	2017/12,	Visa
4147202103535835,	2018/06,	Visa
4147202101534574,	2017/03,	Visa
4147202134487261,	2017/06,	Visa
4147202182005304,	2017/12,	Visa
4147202171730714,	2017/05,	Visa

Remember to use the short date expiration format (if here appears 2017/12 you will write 17/12)

Once you have generated credit cards lets head to the Spotify page again.

Then you'll have something like this

The screenshot shows a payment confirmation page for Spotify Premium. At the top, under the heading "Payment", there is a table with the following items:

Item	Amount
30 day of recurring Spotify Premium	\$0.00
Sales tax	\$0.00
<b>Total</b>	<b>\$0.00</b>

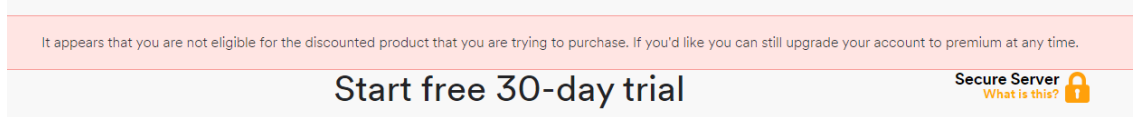

Below the table, the card details are entered:

- Card number: 4147202100267242
- We accept: VISA, MasterCard
- Expiration date (MM/YY): 07 / 17
- CVC: 666

A green button labeled "Confirm payment" is visible, along with a link "Change payment method". A small "CC AUTH" logo is in the top right corner. A disclaimer at the bottom states: "If you do not cancel your subscription before the end of the trial the credit card you provide will automatically be charged the Spotify Premium subscription fee of \$9.99 + \$0.00 sales tax per month, until you cancel. You can cancel at any time by logging into your Spotify account and follow the cancellation instructions. No refunds or credits for partial monthly subscriptions period. For complete terms and conditions, please see our [Terms of Service](#)."

## REMEMBER ON THE CVC WRITE 666

That's the perfect example because you can get an error (like it happened to me now that says this):

The screenshot shows an error message in a pink box: "It appears that you are not eligible for the discounted product that you are trying to purchase. If you'd like you can still upgrade your account to premium at any time." Below the message, there is a large button that says "Start free 30-day trial". In the top right corner, there is a "Secure Server" icon with a lock and the text "What is this?".

Then what we'll do is we'll head to the link that I posted before (the one that you have to follow instead of clicking on the 30 free days thing) and we'll use the other credit cards until it Works.

As you can see I've got error on the first one but when I tried the second one It was successful

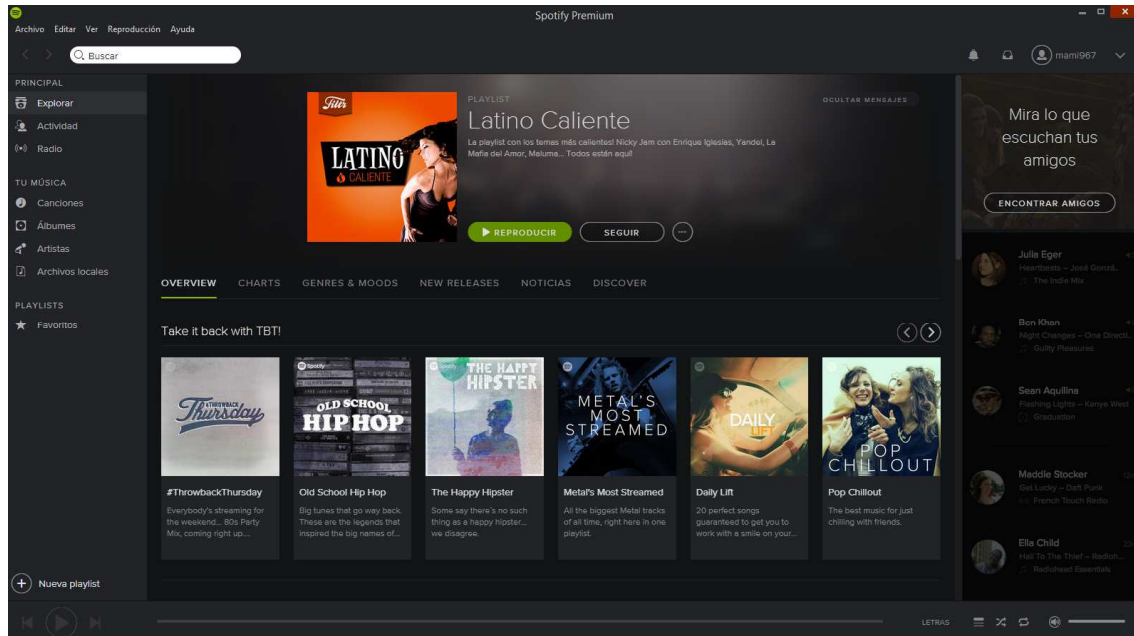

**You will not be charged until after your trial expires on May 9, 2015.** Cancel online anytime you want.

<b>Product:</b>	<b>Premium</b>
